

Randall M. Lundberg Outstanding Safety and Health Program Award

By Mark E. Hurliman, CSHM

Randall M. Lundberg was a local Medford man who was a natural leader. Randy was the Human Resources Director at Cascade Wood Products in White City. A founding member and strong supporter of the Southern Oregon Chapter of the ASSE, Randy served on the conference committee multiple times and held many board positions, including Chapter President.

Randy was well known for his abundance of energy and his infectious enthusiasm. It was hard to say no when Randy asked you to be part of something. He worked hard to make doing the right thing fun. The Chapter membership grew considerably because of Randy's involvement and his efforts to get people involved. Tragically, Randy and his wife Judy Lundberg were killed in a vehicle accident in 1994. In 1995, the Chapter created the Randall M. Lundberg award for Outstanding Safety and Health Program.
